

The Beauty of Designing Thesis Slides

Bachelor Thesis
Michael Miehler
1. Januar 2014

Introduction

- I will always try to keep the
- Number of bullet points
- Low and use cool images instead
- If really necessary
 - I can make use of several levels
 - To cluster information that
 - belongs together

Fancy Slide Animations

- Fancy slide effects in general do not raise the quality of my talk
- Although they can be moderately used to enhance the flow of the presentation
- The transitions used on this slide are not a good example ;)
